### Taliban Air Force - Mawlawi Amanuddin

On Monday, after a few days in Panjshir province, Mawlawi Amanuddin, Commander-in-Chief of the Taliban Air Force, arrived in Faizabad, Badakhshan province.

Purposes under the command of the Taliban leader:

1. The Badakhshan Taliban are worried about the Darwaza district and the border with Tajikistan, sending more troops to Darwaza to take action.
2. Mawlawi Amanuddin plans to recruit minors from all districts of Badakhshan by giving them points to protect in the neighborhoods.
3. Mawlawi Amanuddin is supposed to travel to all border districts. He is most worried about the developments near the borders and wants to monitor and control the communities.
- 4- Mawlawi Amanuddin tries to activate the cult battalions by assigning minors and youth to the areas under his command.

The Taliban fears insurgents in Panjshir, Parwan, Badakhshan, Bamyán, and Kapisa provinces.

Haji Forqan\*, Sheikh Zakir, Mawlawi Ibrahim met yesterday Monday in Spin Gol, Argo district of Badakhshan province at the house of Commander Fazel, son-in-law of Yusuf.

In their meeting, they decided on several issues, including:

- If the war intensifies, foreign fighters, including the East Turkestan Islamic Movement, the Islamic Movement of Uzbekistan, Ansarullah Tajikistan, etc., leave foreign groups in the center of the districts to return to the main center of Khostak Valley.
- No foreign fighters should be in a military position or be entirely personal and in local Afghan dress.
- Third, in this meeting, they define their responsibilities.

Haji Forqan arrived in Baghlan and Kunduz this morning to view the situation ahead.

### Drug trafficking Taliban leadership

Regarding drug trafficking by the Taliban leadership and the formalization of opium trafficking:

- The Taliban have formalized opium smuggling, and their communicators who transport opium to Kabul are given a single piece from the province to transport their opium.
- Currently, a clove of opium is sold from 3,500 to 3,700 on the black market.
- The second case is that Amanullah Afghan, who the previous government imprisoned, is now smuggling drugs across the border and into major cities, along with Mawlawi Amanuddin's brother and two foreign nationals. Eighty percent of smuggling funding comes from Haji Forqan\*. The smuggling is coordinated with Amanullah Afghan.

[2:17 PM, 3/1/2022] @Ultrascan-research.com:

## Taliban in Panjshir province:

Date: 7\_12\_1400

### Level of the leadership of the Taliban in Panjshir province

Since Thursday, Mullah Yaqub, the Minister of Defense, the Director-General of Intelligence, General Mobin, with a quantity of 2500 Mansouri, Omari, and Badri units, has moved 2100 soldiers from the Ministry of Defense to Panjshir and divided them over the mountainous areas.

- Qari Fasihuddin, Mawlawi Amanuddin, Mawlawi Abdul Rab are in charge of reforms in the Ministry of Defense and Badakhshan. They have been living in Panjshir for a week now.

- The Taliban believe that if the resistance in Panjshir is eradicated and destroyed, the rest of the opposition will lose their courage.

- The Taliban currently pay 70 percent attention to Panjshir and 40 percent to Kabul, Parwan, Kapisa, and Andarabs District of Baghlan province. The Taliban see Panjshir as the first threat and Kabul, Parwan, Kapisa, and Andarabs as the second threat.

- Mullah Ya'qub has warned Qari Fassih al-Din and Rumi Aman al-Din that if the resistance is not eradicated this time, you will have to fight again in the trenches for many years, and it's your responsibility.

- Abdul Haq Wasiq, the director-general of intelligence in Panjshir province, has been awarded a prize of 50,000 to 100,000 afghanis for anyone who reports secret weapons depots or liaisons with the resistance.

- According to our information, not one Panjshiri has cooperated yet, and the level of dissatisfaction increases daily.

- Currently, 70% of the National Army's forces of the Taliban Ministry of Defense are not ready for war due to the lack of facilities and distribution of salaries. The Haqqani network and the Taliban have forced people from the southern provinces to fight the resistance front in the north. People in the southern regions are unhappy with the Taliban leadership.

- Among the Taliban, the dissatisfaction of non-Pashtun tribes among Taliban increases. Some are waiting for the Resistance Front to launch an offensive against the Taliban and expect the Tajik and Uzbek Taliban to leave the ranks of the Pashtun Taliban and join the Resistance Front.

- The Taliban are currently using two options to occupy the areas of the resistance front.

1- Physical efforts of the people and vehicles of Kabul and provinces and places that are themselves suspicious.

2- Aggressive attacks on the remains of the Resistance Front in the mountains. The Taliban can not advance further without suffering casualties because they do not know the mountains and heights of Panjshir.

The Taliban are currently concentrating on one point. If they launch offensive operations elsewhere, that will show the glaring weakness among them.

[2:09 PM, 2/27/2022] @Ultrascan-research.com:

## Taliban combat facilities in the border strip of Badakhshan province:

Date: 8\_12\_1400

The current facilities and quantity of the Taliban in the border strip are as follows:

1. The commander of Ishkashim battalion named Qari Zahir - 60 men.
2. The commander of the Zibak district battalion is Qari Mahfouz Kojgak – 50 men.
3. The commanders of the battalion of Wakhan Aminullah Bashand - 35 men
4. Shaghanan district is Ibrahim Malangab - 40 men.
5. Miami Darwaz Bala district A newly appointed commander of Maimi himself - 30 men.
6. The district governor of Nasi Juma Fateh, known as his ruler, is the gatekeeper. He has about 60-70 men.

### Weapons:

At the moment, they do not have heavy weapons of Dehshkeh and Ziko one. Mortar weapons (Awan) are also in some places, such as Nessie, and Ishkashim.

- Laser weapons for two miles and three miles in each group of ten fighters.

For the time being, the Taliban have focused more on Panjshir and Kabul, and they have a shortage of troops to transfer to Panjshir, Parwan Kapisa, Kabul, and Andarab provinces.

## ETIM, IMU, and Ansarullah Tajikistan in Badakhshan province:

Date: 8\_12\_1400.

### Meeting

Haji Forqan\* was in Baghlan province a week ago and arrived in Baharak, Badakhshan. According to our source, he was present at the previous National Security Base 01 on Friday.

Sheikh Zakir, who has just been appointed the new leader of the Islamic Movement of Uzbekistan and Artash, known to us as Haris, is currently in charge of this group in Faryab province. Ibrahim, Sheikh, and Mehdi Arsalan, members of Ansarullah, a man named Abdul Haq, who had just arrived in Badakhshan, convened a meeting around 2 o'clock and settled the following conversations:

### Lies to legitimize the government

The leaders of the above foreign fighters are tired and annoyed by the current situation and the pressures of foreign countries to disarm and disqualify foreign immigrants.

But the Taliban leadership has assured them not to worry and not to be upset. We are at your side, and as always, we need you. We only interact with the region's countries to legitimize our government, but we will never give up on you. This is our foreign policy directed at the countries of the region. But you can be sure that we will not allow any group or country to decide or act against you. For now, we are only trying to keep the region's countries satisfied until the Western and Arab countries recognize us.

During the Friday meeting, the leadership of the Haqqani network sent a message to the leaders of foreign terrorist groups. Your existence in Badakhshan province is approved. Transfer your new fighters to Badakhshan and place your existing troops in the northeastern provinces for a while. Transfer your forces back to Badakhshan after we manage the situation and repel the coming spring wars. And advise terrorist group leaders to be prepared to repel attacks and threats from Tajikistan's borders. We will send you as soon as possible reinforcements. Assure the leaders of the terrorist groups that any factions will not harm you during our government. You continue your activities as always, secretly.

- All foreign immigrant leaders, including Haji Forqan\* and Abdul Haq, have felt dissatisfied and tired of the current situation. And the leadership of the Haqqani network assured them that they will use their power in the current government and the countries of the world to stand by you.

- Due to possible conflicts in Badakhshan, Takhar, Kunduz, and Baghlan provinces, - military units Mansoori Lashkar, Badri, Omari, and foreign warriors are on standby to play a role in the martyrdom sections.

To control the threat on the borders with Tajikistan and Uzbekistan, all weapons purchased by foreign fighters are transferred to border districts in a few days.

### Duties until Second month 1401

Mehdi Arsalan will be in charge of Darwaza districts, and in the next few days, he will go to Nasi Darwaz with his own possibilities. The Sheikh will be in charge of the Ragh districts.

Abdul Haq is in charge of operational plans for border districts and logistics and military supplies. Sheikh Zakir is in charge of arranging military units and operational objectives.

Haji Forqan himself is in charge of organizing the provinces of Badakhshan, Takhar, Kunduz, Baghlan, Faryab, and Mazar-e-Sharif, which supervises checks and controls all departments of their fighters.

- Haji Forqan\* has presented these programs in the meeting to save their lives in the north of Afghanistan.
- Qari Siraj is currently in charge of foreign fighters in Baghlan province.
- Talha Uyghur is in charge of foreign fighters in Kunduz province.
- Osama Uighur is in charge of a small group of foreign fighters in Takhar who are not fixed and are auxiliary.

[2:09 PM, 2/27/2022] @Ultrascan-research.com:

### Measures taken to avoid identification:

Date: 8\_12\_1400

The foreign fighters have aligned their position based on guidance by the Taliban leadership and taking measures for themselves.

- All the foreign fighters have changed their appearance. They wear civilian clothes adjusted to local communities, and they do not go armed around the bazaar and markets and mingle with the local public. They even have family ties with the locals, use personal vehicles, keep their weapons in the homes of trusted people, and have only a few weapons depots in their bases. They keep depots a few miles away.
- When their identities are revealed, they are transferred to other Baharak areas or sent to militaries in Baghlan, Kunduz, Takhar, Faryab province.
- Not to be revealed, their leadership does not spend more than a couple of days in one area. For example, a week in the Baharak district, they will spend two days in Warduj, Jurm, and Faizabad. Similarly, in Baghlan, Kunduz, Takhar, and Faryab provinces.

## Halimov leads ISIS in Afghanistan and Central Asian countries

Gulmurod Salimovich Khalimov was a Tajik and Islamist military commander. A lieutenant-colonel when he was commander of the police special forces of the Interior Ministry of Tajikistan until 2015, he defected to the Islamic State. **He led ISIS in Syria.**

Date: 2022 02 19 @Ultrascan-research.com

### Activity and goals of Halimov in Badakhshan province:

According to our sources inside the Halimov group in Kran and Manjan district, **Halimov is currently in Para chinar of Pakistan.** His men presently operate in Tajikistan from Badakhshan province with three primary goals.

This report is based on the notes of Halimov's assistants.

### Islamic State of Iraq

Halimov has enough money at his disposal, a special financial budget from the Islamic State of Iraq, and no affiliation with ISIS Khorasan. Iran supports Isis Khorasan.

### Funding – Money transfers

\$ 5 million, of which \$ 3 million arrived in Pakistan from Turkey, the Middle East to Pakistan and Afghanistan by a money transfer provider named Haji Ruhollah, a Pakistani resident of North Waziristan.

Haji Ruhollah is one of the trusted people of the Islamic State of Iraq and keeps millions of dollars for Islamic State, including Halimov's two million dollars in Afghanistan with three money changers in the provinces Kunar, Nangarhar province, and Badakhshan province.

### Halimov's three primary goals:

Halimov buys thousands of weapons from winter to spring 2022. He ensures that his men are equipped with the best weapons to fight enemies. So far, he has purchased mostly modern American weapons and has deposited them in several locations in Badakhshan and Nuristan.

### The second goal

Halimov recruits hundreds of tired and poor Taliban fighters, including foreign fighters. Recruit and train young people attending religious schools in Afghanistan's north and northeastern provinces. Kick the Taliban out, bring it under its control and **raise the ISIS flag.** Halimov's representatives in northern Afghanistan, such as Baghlan, Kunduz, Takhar, Badakhshan, and Samangan, have begun recruiting young people.

### The third goal

Halimov has allocated millions of dollars to organize suicide bombings and targeted assassinations in Tajikistan to destabilize Tajikistan economically until the people rise up against the government of Imam Ali Rahmanov. Set the stage for more activities and recruitment inside Tajikistan. For years, Halimov has been sending money via Turkey to his contacts in Tajikistan, and now it is time for them to start.

Halimov is currently providing financial assistance to poor families in Kran and Manjan districts and the Taliban commanders there. Taliban commanders support Halimov in these districts.

### Attack Tajikistan in the spring of 2022

Halimov is building a large organization in Central Asia by the spring of 2022. He has no interest in heading this organization only wants to lead the military part. Halimov intends to equip his force with modern weapons. If other groups unite and cooperate, Halimov will attack Tajikistan in the spring of 2022. Halimov believes that the Tajik border forces cannot confront and fight against his forces.

### Three training centers in Pakistan

Halimov launches operational, recruitment, and recruitment plans for the terrorist attacks on Tajikistan in his training centers in Pakistan.

Five months ago, Halimov was in Badakshan. Now he's back in Para Chenar Alaqa Ghair of Pakistan, where he has three terrorist training centers.

East Turkestan has established a large new section called the Network for the Salvation of the Islamic Ummat (Najat Omat Islami). This network is created by the nephew of Haji Forqan. *Mullah Omar*

*\* Mullah Omar died before 2003 and was replaced by a creative narrative.*

*Mullah Hibatullah*

*\* It seems the figurehead Mullah Hibatullah is part of a similar narrative.*

*Bagram airforce base*

*\* Some time after Kabul's fall, fuel and lubrication is delivered at Bagram airport to over one hundred "contractors" who are serviced by a group of 300 third-tier workers from India. In part protected by Badri forces from the Haqqani network. While another part of the airport is protected by fighters from the Queta Council.*

## FIX THIS

The enemy appears driven and motivated by something other than ideology or funding. Every one of these events (could have) occurred as a result of a failure of imagination. The job is not to predict tomorrow based on yesterday. That's what academics do. The task is to prevent the end of tomorrow by using your brains and your imagination. If you don't identify and find the threat before it's too late, you might be held responsible for the single largest intelligence fumble since a flight instruction school in Florida failed to grasp the significance of a 19-year-old Al-Qaeda terrorist saying he didn't need to learn how to land.

## Some paid advice

Ultimately, one can find them all to be human failures.

But suppose you believe that wars and insurgencies resulted from intelligence failures, or even worse, a lack of strategy. In that case, consider yourself lucky because nobody will tell you their actual military strategy and intelligence policies for you only to have an opinion. No, you are at the receiving end of a successful strategy and intelligence narrative.

## A context of intelligence operations

Since 2007 the intelligence services prepared for a significant shift in real US geo-policy, military power, and intelligence.

---

*An essential part of that shift, leaving war zones and decreasing its military presence in partner countries, occurs. It is explicitly cutting off Iran, Pakistan, and Israel. Allocated financial DoD resources show that what remains are substantial special operations (US-SOCOM) [...] a prioritized global monitor function. [...]*

## Why HUMINT

Why do we need secret agents? Isn't it all rather quaint?

Is it that we see a different, more frightening world than you do?

Our enemies are no longer nations and do not exist on a map but are non-state actors and unknown individuals. Look around you, who do you fear? Can you see a face, a uniform, a flag? No. Yet, before breakfast in their pajamas, they can do more damage from their laptops than an intelligence agent can during a year in the field. Online organized crime doesn't know law and order, has a Wild West mentality, and is lawless to the core. Anarchy.

While transparency became fashionable in the West, the world is not more transparent now. Today it's more opaque, in the shadows, and that's where we do battle. So, before you declare that irrelevant, ask yourselves, how safe do you feel?
